

LED Handlamp Battery

Railwayman's Handlamp replacement battery pack

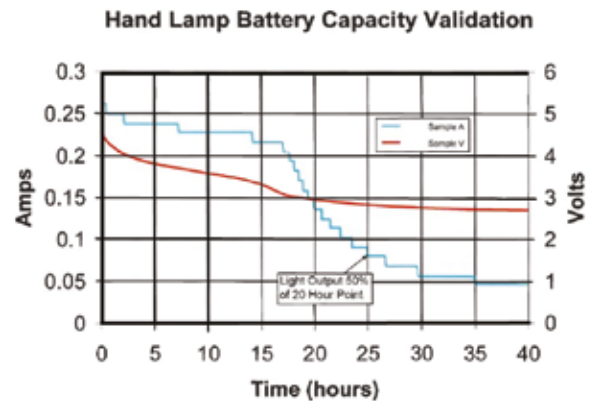

The Unipart Dorman LED Railwayman's Handlamp was developed in close cooperation with Network Rail. One of the requirements specified during the development and approval of the lamp was the use of a special to type battery pack to reduce pilferage.

The battery pack uses Alkaline Manganese cells and these must be disposed of in accordance with all local and national regulations in force at the time of disposal.

Unipart Dorman Part Reference	B91.90018
PADS Reference	094/008051

Technical Data

Electrical Characteristics	
Nominal Voltage	4.5 V
Nominal Capacity	4.8 Ah
Physical Characteristics/Dimensions	
Length	102mm
Width	62.5mm
Height	24.9mm
Net Weight	0.18kg
Operating Temperature Range	-20 to +30°C
Case Material	Lexan 1414
Terminal Material	Tin Plated Spring Steel
Shelf Life	5 Years
Mercury and Cadmium Content	< 1 PPM
Lead	<15 PPM

A reloadable battery pack is also available which contains 6 x AA/LR6 disposable or rechargeable batteries for non-Network Rail applications. The handlamp with reloadable pack is used in a wide variety of rail and non-rail environments and has a NATO Stock Number allocated for defence purchasers - see detail below.

Unipart Dorman Part Reference	B91.90021
PADS Reference	0050/559357
NATO Stock Number	6160-99-4266360
