

Performance in motion

Classic Banner Repeater Signal

The Classic Banner Repeater Signal displays a black bar on a disc of either white or green LEDs

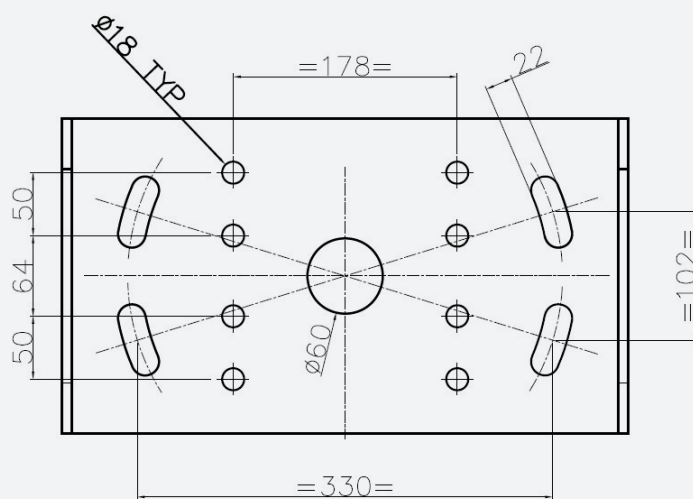

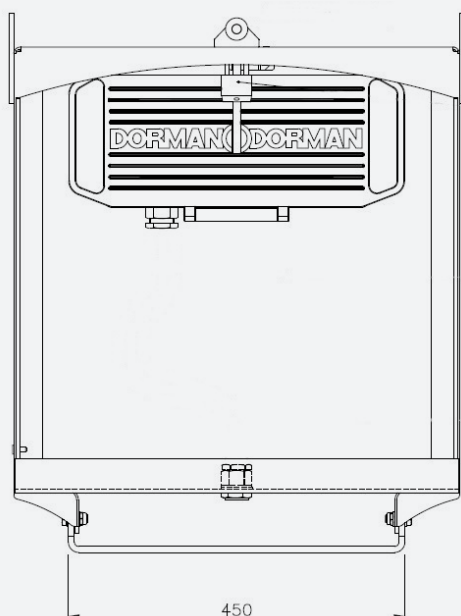

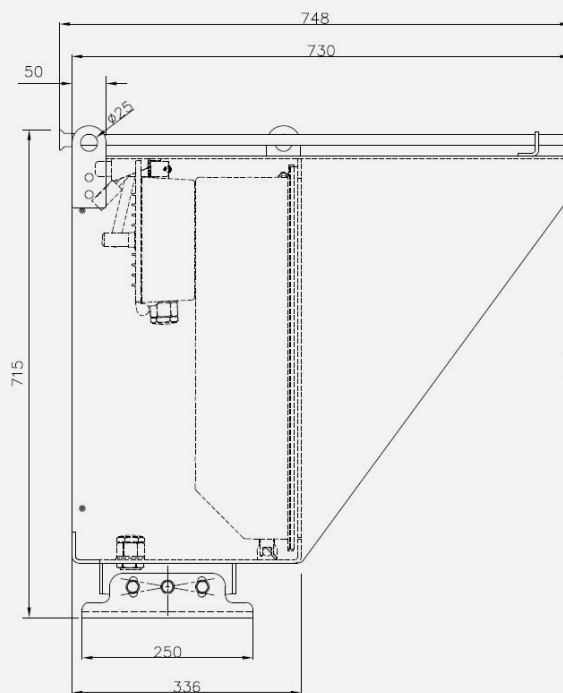

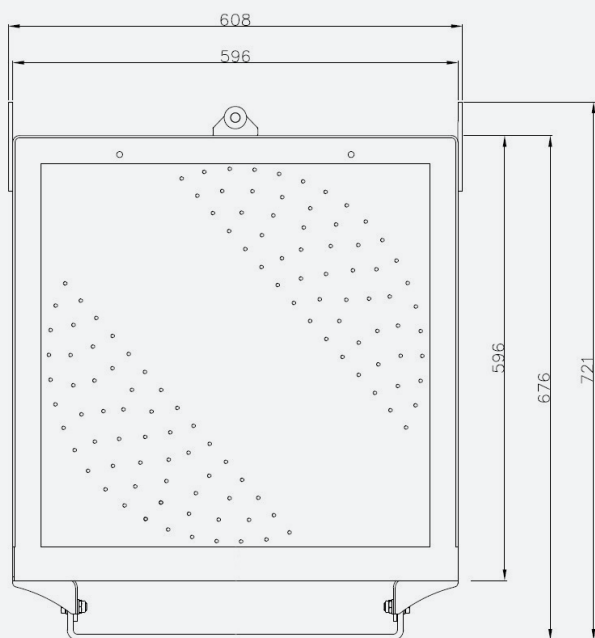

This indicates that the signal it refers to is either On (horizontal bar indicating the signal is at danger), Proceed (a diagonal bar against a white background indicating the signal is not at red) or in a 3 State Banner Off (a diagonal bar against a green background indicating the signal is at green).

2 State Banner Repeater Signals can be specified in either 300mA or 500mA versions.

Performance Characteristics

Product Approval Certificate	PA05/02592 (2 State), PA05/03054 (3 State)
Nominal Operating Voltage	110 Vac or 120 Vdc
Operating Voltage Range AC	88-121 V
Operating Voltage Range DC	88-145 V
Nominal Operating Current	300 mA at 110Vac or 500mA at 110Vac (2 State only)
Electrical Connector Type	Free Wired to 2BA Terminal Bar
Ingress Protection Rating	IP 65
Operating Temperature Range	-25°C to +40°C
Readability	250m
Viewable Angle	+/- 45° at 250m
Product Weight	35 Kg
